B-TECH IN COMPUTER SCIENCE AND BUSINESS SYSTEMS CANDIDATE, Patiala, PATIALA, PUNJAB

Thapar Institute of Engineering and Technology, Expected Graduation May 2025

GPA 8.61

SKILLS

Effective Time Management

Adaptability

Ability To Work Under Pressure

Fast Learner

Ability To Work In A Team

Communication Skills

Collaboration & Teamwork

TECHNICAL SKILLS

- Web Development- Creating responsive web pages to ease the user end experience by using HTML/ CSS/ Javascript/ Python(Flask, Django)/ SQL/ Nodejs.
- Discord and Chatbots- Currently trying to master on creating chat bots using Natural Language Processing. Using Nodejs to create Discord bots and DialogFlow Google API to create Messenger chat bot.
- Data Structures and Algorithms- Currently on the path to improve the efficiency in solving Data Structures and Algorithms in languages like, C, C++, STL, Java and Python.

PROJECT EXPERIENCE

Discord Food Delivery Bot

Designed a Discord Server Bot that will analyze commands sent by users via channels, process them and ultimately send back the expected Response.

Implemented third party API's like Uber Eats, etc to leverage the user end experience thereby reducing the time spent by customers.

Worked on Discord API to implement the algorithm to ease the food ordering experience of end-users.
